

Vision

To be recognized as center of excellence by producing globally competent technocrats with an aptitude for skill development, higher studies and research to fulfill the societal and industrial needs and challenges.

Mission

1. To endow with academically encouraging environment in the department.
2. To prepare engineers equipped with necessary analytical, mathematical, decision making, communicative, leadership, ethical and team work skills
3. To accustom department with latest trends in the field of Electronics and Telecommunication Engineering.

Program Specific Outcomes (PSOs)

Engineering graduate in Electronics and Telecommunication Engineering Program will be able to do-

- Attain a solid foundation in Electronics and Communication Engineering with an attitude to function in multidisciplinary environment.
- Design, analyze, synthesize, simulate, validate and interpret Electronics and Communication components and systems using techniques, skills and modern engineering tools.
