

Research Publications by the Faculty

- Mr R.R.dube published a research paper entitled “Increasing the strength of Audio water marking against De synchronization attacks” in International Journal of Engg. Research and application, ISSN.2248-9622 vol 3 Issue 5 Sept-oct 2013 PP 1621-1625.
- Mr. M R Madki published a research paper entitled “Implementation of V-Blast detector in MIMO for high data rate SDR” in International journal IJERT ,Volume 2, Issue 7 (July -2013)
- Mr. M R Madki published a research paper entitled “Analysis and Implementation of Multi rate cascaded integrator comb (CIXC) Interpolation and decimation filter with compensation filter for software defined radio” in International journal IJERT, Volume 2, Issue 7 (July -2013)
- Mr. M R Madki published a research paper entitled “Higher spectral efficiency using space division multiplexing for MIMO-OFDM software defined radio” in International journal of IJESRT, July 2013, ISSN :2277-9655.
- Mr. M R Madki and Mr. S.P. Kulkarni published a research paper entitled “Three tone inter modulation distortion generated by super conducting bandpass filters” in International journal of IJSER, FEB 2014, ISSN :2277-9655.
