Solapur

## Institution's Innovation Council

### Report of Self Driven Activity

Date: 22/08/2023

Day & Date : Tuesday & 22/08/2023

Venue : Conference Hall (Civil-Mech Building)

Speaker : Pramod Kanade (Entrepreneur), CEO & Founder President of Kanade group of Trainings

Topic : Qualities required for Entrepreneurship

Mr. Kanade initially shared his experience while he was serving an industry. Then he told the reasons behind starting his own organization. He then discussed about various qualities required for entrepreneurship. He focused on the qualities adaptability, Problem Solving Ability. He said that the technology is changing rapidly. We should adopt the same if we want to remain in the market. He said that consumer behaviors are also changing. He gave many examples of these changes. He appealed students to develop these qualities in them while studying in college only. He advised students to participate in various hackathons arranged by different organizations.

He said that there are many definitions of entrepreneur. But out of these, the best definitions are those containing risk taking ability, innovativeness & organizing/ managing capability. He gave examples of different businessmen having these different qualities. Further, he suggested students to attempt online quizzes related to entrepreneurial ability. He said that we should try to check which quality we are lacking & how to improve that one. He said that we should follow ethical practices while in business.

More than 350 students & faculty members got benefitted from this session.
